About

I am driven by curiosity about technology and a desire to understand how digital systems can be protected

from security threats. As a first-year B. Tech Computer Science and Engineering student at KL University, I am working toward a career in cybersecurity, with a particular interest in cloud security.

What I'm building right now:

- Learning Python to develop programming and problem-solving fundamentals.
- Planning to explore Linux, computer networking, and cybersecurity fundamentals.
- Working toward applying my knowledge through practical exercises and beginner-level projects.

I'm looking for Connections with cybersecurity enthusiasts, fellow students, and industry professionals and opportunities to collaborate on beginner-friendly technical projects as my skills develop.

I'm always open to connecting with people who are passionate about technology, learning, and digital security.

Feel free to connect with me here on LinkedIn!
